1. In view of the Appeal Brief filed on 12/30/2004, PROSECUTION IS HEREBY REOPENED. New grounds for rejection of claim 14 are set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

(1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,

(2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

2. Claims 1-14 are pending in this application.

3. Applicant's arguments, filed 12/30/2004 with respect to claims 1-14 have been fully considered. The final rejection of claims 1-14 has been withdrawn.

4. Applicant's arguments, filed 12/30/2004 with respect to claims 1-13 have been fully considered and are persuasive. Claims 1-13 are now allowed over the cited prior art.

5. This application is objected to because it contains a data file on CD-ROM/CD-R, however, the transmittal letter does not list for each compact disc, the machine format, the operating system compatibility, a list of files contained on the compact disc including their names, sizes in bytes, and dates of creation, plus any other special information that is

Art Unit: 2154

necessary to identify, maintain, and interpret the information on the compact disc as required by 37 CFR 1.52(e)(3). A statement listing the required information is required.

6. Portions of this application are contained on compact disc(s). When portions of an application are contained on a compact disc, the paper portion of the specification must identify the compact disc(s) and list the files including name, file size, and creation date on each of the compact discs. See 37 CFR 1.52(e). Compact disc labeled "**Practicefirst.com**" is not identified in the paper portion of the specification with a listing of all of the files contained on the disc. Applicant is required to amend the specification to identify each disc and the files contained on each disc including the file name, file size, and file creation date.

7. This application contains compact disc(s) as part of the originally filed subject matter, but does not contain incorporation by reference statement for the compact discs. See 37 CFR 1.77(b)(4). Applicant(s) are required to insert in the specification an incorporation-by-reference of the material on the compact disc(s).

8. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

9. Claim 14 is rejected under 35 U.S.C. 102(e) as being anticipated by Sandgren et al. (US 6,442,693), hereinafter "Sandgren".

10. As to claim 14, Sandgren discloses the invention as claimed including a method for enrolling and grouping users comprising assigning enrolled users into specific work groups (col. 1, lines 14-16; registered family members, col. 2, lines 33-35); assigning the specific work

groups levels of access to a web site system over the internet (col. 1, lines 54-57); limiting the specific work group to the assigned level of access to the web site system (col. 2, lines 1-7; col. 3, line 60 to col. 4, line 4); and providing communication capabilities over the internet to the specific work groups which are limited to the work groups assigned level of access (col. 1, lines 49-57; and col. 2, lines 18-25).

11. Applicant's arguments filed 12/30/2004 with respect to claim 14 have been fully considered but they are moot in view of the new ground(s) of rejection.

12. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
